This is to certify that electrical appliances have been tested for electrical safety on the date of the PAT certificate. It does not guarantee the correct operation / safety of the appliances for any length of time. If the appliance develops a fault after the test date the appliance should be removed from operation for further inspection from a competent person. Limited tests are conducted on appliances with no plugs (F/A) or when plugs are not accessible. All other appliances are tested for electrical safety in accordance with the IET code of practise for in service and inspection and testing of electrical equipment. Appliances that fail for any reason will display fail labels and need taking out of service

PAT Test Certificate

In-Service Inspection and Testing of Electrical Equipment Test Certificate

Health and Safety at Work Act 1974
Electricity at Work Regulations 1989
Management of Health and Safety at Work Regulations 2003
Provision and Use of Work Equipment Regulations 1998

This is to certify that an inspection and test of Electrical equipment owned/managed by

Alberto Crippa 4B Goschen Place Broxburn

was carried out by

Ross Sommerville

วท

24th July 2023

The inspection and tests were carried out in accordance with the above legislation, and in accordance with the guidance laid down by the Institution of Engineering and Technology in their Code of Practice for In-Service Inspection and Testing of Electrical Equipment. The electrical equipment testing report register, which was provided with this certificate details the appliances tested and the results that were obtained.

Number of appliances: 9
Certificate reference: 4BGoschen01
